

## Carbon Reduction Plan

Supplier name: James A Cuthbertson Ltd.

Publication date: May 2026

### Commitment to achieving Net Zero

James A Cuthbertson Ltd is committed to achieving Net Zero emissions by 2050.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

**Baseline Year:** 2027, first quarter.

### Additional Details relating to the Baseline Emissions calculations.

*We are just at the beginning of the implementation of our Carbon Reduction Plan and are using 2026 for the data gathering. In Q1 2027, we will then be able to establish our baseline for the Scopes, and the extent of those scopes, that are applicable to the business.*

**Baseline year emissions:** Will be established in Q1 2027.

EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	Not known at this stage
Scope 2	Not known at this stage
Scope 3 (Included Sources)	Not known at this stage
<b>Total Emissions</b>	Not known at this stage

**Current Emissions Reporting**

Reporting Year: 2026	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	Not known at this stage
Scope 2	Not known at this stage
Scope 3 (Included Sources)	Not known at this stage
Total Emissions	Not known at this stage

**Emissions reduction targets**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the Stage 1 period of our CRP, which is five years starting from Q2 2027, to \*tCO<sub>2</sub>e by 2032. We are aiming for a Stage 1 reduction of between 15% and 20%.

*Note: \* is not known at this stage.*

# ENVIRONMENTAL

Once our current emissions and our targets are established, we will be in a position to produce a Graph for Projected vs. Actual Carbon reductions.

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects will be completed or implemented by in Q'2 2027, the baseline having been established in Q'1 2027.

At that stage we will be able to note the estimated percentage reduction in our tCO<sub>2e</sub> levels against our baseline.

Given our timeline and the dates that the Framework runs to and from, we are confident our additional reduction measures will be in effect when performing the Contract.

In advance of establishing our baseline, we have undertaken the following tasks:

- Purchase of Electricity from ENGIE which has a goal to have a generation mix of 58% renewable electricity by 2030.
- Installation of LED High Bay lighting throughout our workshop
- Upgraded lower energy lighting in our paint shop
- Consideration of securing certification to ISO 14001
- Machine tool upgrade with lower energy use replacements.

### Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Consideration of a solar array installation.
- Consideration of an onsite wind turbine and supporting battery storage.

**Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions will be reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and will use the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions will be reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

**Signed on behalf of the Supplier:**
